

## SERIOUSLY SILLY QUESTION

# WHAT IS A LEMON?

Just like the yellow fruit, a “lemon” car is extremely sour. Imagine buying a brand new vehicle and on the way home, parts of it start falling off. Is your face all twisted up in disgust? That’s a lemon—a new car that is plagued with terrible defects and problems. There are actual Lemon Laws to help people who plunked down big bucks for a vehicle with big problems, ranging from screwy steering to faulty brakes to really bad smells! If the company can’t fix it, they have to provide a replacement or give you back your money. That makes us wonder, are there Lemon Laws to fix smelly sneakers? Because ours stink!
